Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 7 is objected to because of the following informalities: the phrase "destroyed during crash" should be *destroyed during a crash*. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which the subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cannon, et al. (6,713,001) in view of Ahluwalia (6,858,550).

Cannon discloses a restraint for a passenger in a vehicle comprising a seat 10 having a seat portion 12, a back portion 18 and side portions connected together forming a cavity tailored shaped to form fit around a specific passenger of a vehicle limiting motion of the passenger relative to the vehicle. Cannon teaches a back insert removably mounted to the back portion and replaceable when destroyed, as shown in figure 8.

Cannon teaches the claimed invention except for a seat formed from a plastic. Ahluwalia teaches fire resistant fabric material which can be of any shape and may be used with any of a variety of products. The fabric may be made of a polypropylene. Based on the teachings of Ahluwalia, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the back insert of Cannon to be formed from a plastic having resistance to fire and heat to provide safety to a passenger during a vehicle crash.

Allowable Subject Matter

4. Claims 13-15 are allowed.
5. Claims 9-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion
